IDENTIFIERS	United States

ABSTRACT

Summary data for 1984-1985 on basic students charges are provided for nearly 3,400 two- and four-year colleges and universities in the United States. The national survey of institutions obtained information on typical charges for tuition, and fees charges required of full-time undergraduate and graduate students. In-state and out-of-state charges are given where they apply, as are charges for room and board, and the number of days per week for which board charges are applicable. The data are presented alphabetically by state and by college within the state. (SW)

Center for Statistics

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."--Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

Preface

This is the fifth annual booklet prepared by the Center for Statistics providing a summary of basic student charges for nearly 3,400 public and private colleges and universities in the United States. The institutions in this booklet meet certain accreditation requirements specified by the Secretary of Education and include schools offering at least a 1-year program of college-level studies leading toward a degree.

The data are from responses received before May 15, 1985, to a Center for Statistics survey of the Nation's colleges and universities. Institutions were asked to provide the typical tuition and fees required of full-time students for the academic year 1984-85. In-State and out-of-State charges for full-time undergraduate and graduate students are given where they apply, as are charges for room and board, and the number of days per week for which board charges are applicable.

Survey responses were reviewed for accuracy and consistency. Nonresponding institutions are footnoted, and their 1983-84 data are provided where available. Footnotes are also used to indicate special cases where the reported charges may be misleading. A dash (-) indicates charges are not applicable; an asterisk (*) indicates data were not reported for 1984-85 and could not be determined.

This booklet is one of many sources available for use in selecting a college or university. Many other references are available, and a good starting point is your school or local public library. Consulting a guidance or career counselor is also helpful, as is the advice of someone who has attended an institution in which you are interested.

The *Education Directory, Colleges and Universities 1983-84,* published by the Center, and similar guides and handbooks, provide basic institutional data such as address, telephone number, admission requirements, types of programs offered, calendar system, size of student body, and highest level of offering. Once you have narrowed your selection, contact each college directly for a catalog and application form. You may also wish to visit the colleges or universities in which you have a serious interest.
